

# Project Design Phase-I

## Solution Architecture

Date	19 October 2023
Team Id	<a href="#">Team-591216</a>
Project Name	Dissecting the Digital Landscape: A Comprehensive Analysis of Social Media
Maximum Marks	4 Marks

### Solution Architecture:

This architecture provides a comprehensive framework for analysing the digital landscape of social media, allowing you to gain insights into trends, user behaviour, and content dynamics across various platforms. It's important to adapt and refine the architecture based on the project's specific goals, data sources, and resources available.
